

Bull Sale

Monday
February 16, 2009

*Winter Show Building
Valley City, North Dakota*

Welcome

from the Dakota Power Group

Welcome from all of us in the Dakota Power group. We are truly grateful for your interest in our programs and the opportunity to present to you an exciting set of Simmental genetics.

2008 if nothing else, was an interesting year. Record highs, to moderate prices which was said we would not see again for sometime. I won't repeat the numerous clichés made over the past year. But one thing is true, what goes up, will (or must) come down. As we look forward to 2009 and beyond, there is great opportunity in the cattle business. Yes opportunity for profit; beef cow numbers are down, pork and poultry production is down.

With fewer cattle numbers and lower input costs, we are extremely optimistic of the opportunities presented in the cattle industry.

Even though fuel, feed and fertilizer prices come down over the last several months, we should not take them for granted. We need continued focus on costs and efficiencies. In the beef industry, the most important decision we can make to increase value and decrease cost of production is wise crossbreeding. The impact of heterosis on the calf crop and performance will almost always reduce the cost of production.

We are very excited about this 2009 offering. This set of bull, could be the best set to date. On February 16th, we will bring 3 sets of cattle together to offer you a selection of genetics.

It's all here in one place, on one day. If you are looking for growth, calving ease, carcass, purebred or SimAngus, we will have genetics and prospects for you.

We thank you, for your interest in our programs and genetics.

Sale Terms

All cattle sell under the recommended Sale Terms and Conditions of the American Simmental Association and are available by request.

Delivery

Free delivery within the state or central points. We will provide free keep on the bulls until March 15. After March 15, there will be a charge of \$2 per day. All bulls that return to the farm will require insurance at buyer's expense. Insurance will be available sale day.

Payment Plan

We require half the purchase price at time of sale and the balance upon delivery.

Guarantee

Bulls will be 100% guaranteed to semen test and breed. If bulls are taken home to feed until March 15, risk is at the buyer's expense. All bulls are required to be insured at the buyer's expense. Insurance will be available sale day.

This SimAngus bull has herd bull written all over him. You will have to appreciate how stout and powerful this bull is. Check out his birth weight to weaning spread he had 122 and a 102 ratio for birth weight and weaning weight in our herd. He also ranks in the top 10% for Simm-Angus for API and TI. U801 had a ratio of 104 for marbling and 113 for ribeye. He will be tested for Homo Polled and Black by sale day. We are retaining 1/4 semen interest.

This is one of the best Gunner sons that we have had a chance to see. He has been a stand out since he was a couple of weeks old. One look at U802 and you will see what we mean. This is the most complete red bull that we have had a chance to offer in our sale. He had a 75lbs birth weigh and an 836lbs adjusted weaning weigh. His Red Quorum mother has been one of our top red cows the last couple of years. He will be tested for Homo polled by sale day. We are retaining ¼ semen interest.

H60 does it again!! This is the first year that we used DRS Outback and look at the results. This black brockle face bull is one of the stoutest bull that we have ever offered. He was our last bull calf born and he had an adjusted weaning weight of 906. This bull will sire big stout, soggy made calves that will tilt the scales in your favor. If I were to change one thing about this bull it would be the white on his face. If he was solid black he would be staying in our herd that is how much we think about this bull. He is one of the softest made bulls that I have seen in sometime. Don't over look this one.
