

Bull Sale

Monday
February 11, 2008

*Winter Show Building
Valley City, North Dakota*

Welcome

from the Dakota Power Group

Welcome, Welcome, Welcome!!!!

First — We would like to welcome you to our fourth annual production sale. We are truly grateful for your interest in our programs and the opportunity to present to you an exciting set of SimAngus genetics.

Second — Welcome to the new era in the agriculture industry. The movement towards renewable fuels has created extreme volatility in the grain markets and increased input costs, not only for cattle producers, but all of agriculture. With this in mind, we need continued focus on costs and efficiencies. In the beef industry, the most important decision we can make to increase value and decrease cost of production is wise cross-breeding. The impact of heterosis on the calf crop and performance will almost always reduce the cost of production.

Third — Welcome to the new age of Simmental genetics. Along with an efficient cow herd, carcass traits and carcass premiums are in the forefront. The American Simmental association and JBS Swift Co have combined to offer a new grid system that rewards Choice, YG 2 carcasses. The new 70:70 grid has the opportunity to increase profits for all segments of the industry, because it rewards superior genetics that can be raised at less costs. For more than a decade the American Simmental Association has been testing sires for carcass traits; marbling, yield grade and tenderness. SimAngus genetics that have been processed through this program have posted data at or above the 70:70:0 vs. the recent NCBA Beef Quality audit which revealed national average is 57% Choice, 52% 1&2 and 22% discounted.

We thank you, for your interest in our program and genetics.

Sale Terms

All cattle sell under the recommended Sale Terms and Conditions of the American Simmental Association and are available by request.

Delivery

Free delivery within the state or central points. We will provide free keep on the bulls until March 15. After March 15, there will be a charge of \$2 per day. All bulls that return to the farm will require insurance at buyer's expense. Insurance will be available sale day.

Payment Plan

We require half the purchase price at time of sale and the balance upon delivery.

Guarantee

Bulls will be 100% guaranteed to semen test and breed. If bulls are taken home to feed until March 15, risk is at the buyer's expense. All bulls are required to be insured at the buyer's expense. Insurance will be available sale day.

Sale Day Phones

SimAngus Open Heifers

This year as an added attraction to the Dakota Power Bull Sale, we have hand-selected three groups of high-quality, open, SimAngus replacement heifers. These heifers are from the top of our replacement pens and would be going into our herds, but we felt this was a good opportunity to share some of these genetics with you. The sires of most of these heifers are some of the industry's leaders, as they will be very maternal females and will make excellent cows. These SimAngus cows are making a mark on the cattle industry with their mothering ability, carcass and cutability. So please take this opportunity to select these quality SimAngus genetics from our program at the fourth annual Dakota Power Bull sale. We thank you for your interest.
