

Bull Sale

February 12, 2007 • 1:00 pm CST
Valley City, North Dakota
Winter Show Building

Welcome

From the Dakota Power group.

Welcome to our 3rd annual Dakota Power Bull Sale. We want to first thank you for your interest and considering our genetics in your program. It has been gratifying for all of us to see the success of this sale thrive over the last two years.

As a group, we have similar principles when raising Simmental cattle. We have all stressed convenience traits in our selection process; traits such as polled, calving ease, (a number of bulls with high CE EPDs), disposition, along with economic traits to ensure profitability in your future.

On February 12th, we will bring 3 sets of cattle together to offer you more.....more numbers, more genetic selection, more data, and more customer service than one outfit can alone.

It's all here in one place, if you are looking for growth, calving ease, carcass, pure-bred or SimAngus genetics, we offer it all.

Sale Terms
**All cattle sell under the recommended
Sale Terms and Conditions of the
American Simmental Association and are
available by request.**

Delivery
**Free delivery within the state or central
points. We will provide free keep on the
bulls until April 1st. After April 1st, there
will be a charge of \$1.00 per day.**

Payment Plan
**We require half the purchase price at time
of sale and the balance upon delivery.**

Guarantee
**Bulls will be 100% guaranteed to semen
test and breed. If bulls are taken home to
feed until April 1, risk is at the buyer's
expense. It is suggested that all bulls be
insured.**

These five solid red non-diluter ET brothers are like peas in a pod. This mating between starlight and J893 really clicked. These bulls have muscle, depth of rib and will sire an excellent set of calves. The starlight calves have really impressed us as far as their easy fleshing ability and over all performance. You will notice that S627 has a smaller 205 day weight; this is because he had an old recipe mother who ran out of gas this summer. So don't hold that against him. He caught up with the rest shortly after weaning and carries the same genetics as his sibs. If you are looking for growth and performance here they are.

A good crowd was in attendance for the Dakota Power Bull sale.

– Open SimAngus Heifers –

This year as an added attraction to the Dakota Power Bull Sale, we have hand-selected four groups of high-quality, open, SimAngus replacement heifers. These heifers are from the top of our replacement pens and would be going into our herds, but we felt this was a good opportunity to share some of these genetics with you. The sires of most of these heifers are some of the industry's leaders, as they will be very maternal females and will make excellent cows. These SimAngus cows are making a mark on the cattle industry with their mothering ability, carcass and cutability. So please take this opportunity to select these quality, SimAngus genetics from our program at the 3rd Annual Dakota Power Bull Sale and thank you for your interest.
