Welcome

It is with great pleasure to welcome you to the 2021 Dakota Power Group's 17th Annual Production Sale.

As a group we work together to offer you a set of bulls that are functional and meet today's industry needs. It is a pleasure to work together as a group and bring you a set of cattle that are similar in type and kind, as our philosophies in raising cattle are on the same track. We aim to please, our goal is to offer you the best set of cattle, numbers and genetics available at one place at one time.

As always, we are offer to take home and offer free keep until after semen testing has been completed in April. We offer free delivering within a 300-mile radius and will work with you in the event the bulls have further to go. You will be able to view all bull online on our websites or on DV Auction. We also invite you to our places and evaluate prior to the sale, visitors are always welcome.

As a group, each and every year we expect to offer you a set of bulls superior to those before. This set of bulls will have what you are looking for. Look through the offering, find what you like and give any of us a call to discuss your needs. We are always happy to lend a hand in finding the right bull and genetics to fit your operation. We continually hear past customers say our bulls hold up well during and after breeding season. We strive to produce functional cattle which work in our herd and, more importantly, in yours!

The bred females that we are offering are from the heart of our replacement pen. These females have been AI bred followed by THSR Iconic G932 a bull that we think a lot and knew that we want to use this bull from an early age because of the cow side. The heifers have had both rounds of Scour Bos and two rounds of Vira Shield 6 VL5 HB along with all calf hood vaccinations. We feel these females will go on to make great cows.

We are very excited about this 2021 offering. On February 8th, we will bring another great group of bulls to offer you a superior set of genetics.
